Introduction
Writing is very important to teach in the classroom because it can be used to achieve the ability to write about our feelings, idea, opinion, and also to express anything which come into our mind. According to Jeremy harmer (2001:79) Writing is a form of communication to deliver through or to express feeling through written form. In addition, writing also argues that it can be used as an indirect means of communication to others to convey information activities is not easy to write because writing should be able to produce something new and can give your an idea or ideas to the reader through writing. According to Leo (2007:1) Writing is a process of expressing ideas or thoughts in words should be done at our leisure. In teaching writing there are some kinds of genre must be learnt by students at senior high school, like narrative text, descriptive text, recount text, procedure text, explanation text and so on. But this study only focus on the recount text because recount text is taught everyday and also included in curriculum and in the X IPA1 class there. According to Hyland (2004) cited from Helmi, recount is a kind of genre that has social function to retell event for the purpose of informing or entertaining. The tense that used in recount text is past tense. Social purpose of recount is to reconstruct past experiences by retelling events in original sequence.

One way to helps the teacher in teaching writing recount text is by using media, because media plays important role in understanding English learners in receiving materials. Russell (2008:7)
stated that media for teaching language can be classified into; Teks, Audio, Visual, Video, Prekayasa and The people. One of media that hopefully is personal letter because personal letter become the communication tool to convey information or idea in written by one person to another and also can make student to be more motivated and easier to express their feeling. According to Bodomo (2003) cited from Nisaa, personal letter is a missive communication in writing, addressed to a person or body of person. A personal letter is usually written in casual, friendly language, or in practical straightforward language, depending on the purpose and audience of the letter. By using personal letter in writing recount text, students will be able to tell everything, experience, event they had to share each others. Sy (2019) Writing is major mean by which students demonstrate their knowledge in school, and primary instrument that the teacher use to evaluate academic performance.

The reason of choosing MAN Jung Cangcang Pamekasan school, because this school located in lawangan daya and the teacher can get new media in teaching learning process, especially in writing.

Knowing the phenomena above, the researcher takes a title Teaching writing of Recount text By using Personal letter as Media at The tenth grade students of MAN Jung Cangcang Pamekasan in the academic year of 2015-2016.

**Research Method**

This research design of this study is descriptive qualitative. Mukhtar (2013: 10) defines that descriptive qualitative research is that is intended to collect information on the subject of study and conduct research subject in a given period. Descriptive qualitative research tries to describe the entire circumstances that exist, namely under what circumstances when the study was conducted. Moreover, Marczyk (2005:17) state that Qualitative research involves studies that do not attempt to quantify their results through statistical summary or analysis. This research does not use measurement and statistic data because it just focus on the data get directly by observe the object of observation. So, the data is taken to describe in writing form not in numerical form.

The objects of this research are the students in the X IPA1 of MAN Jungcangcang Pamekasan, the researcher chooses the X IPA1 in this school because recount text is taught in this grade, so it is suitable to be researched.

The tenth grade at MAN Jungcangcang Pamekasan consists of four classes but the researcher takes only one class, that is X IPA1. In this class there are 35 students which consist of 9 boys and 26 girls.

The data of this research was personal letter in teaching writing of recount text. And the sources of data in this reasearch are the students at the tenth grade of MAN Jung Cangcang Pamekasan. In this research, the researcher used purpossive sampling. Given (2008:562) stated that purpossive sampling refers to a process where participants are selected because they meet criteria that have been
predetermined by the researcher as relevant to addressing the research question (e.g., people of a particular age or other demographic category).

In taking the sample, the researcher uses criteria based on the student’s achievement which classified into three levels; smart, average and low ability based on grade point averaged. So, the sample of this research is 6 students. The data are obtained through observation, interview, and documentation.

The procedure of collecting data used in this research is observation, interview and documentation.

1. Observation
   The observation used the non-participant observation. In this observation the researcher tries to look for information of teaching learning process of MAN 1 Pamekasan. The researcher observe twice on 27th April 2016 and 13th May 2016. Besides the researcher also observe the activities of English teacher and students in teaching learning process of the using personal letter media in teaching writing of recount text. The researcher used observation checklist collecting the data, when teaching learning was being done. To know the data are valid or not the researcher used it.

2. Interview
   According to John W. Creswell (2012:212) Interview is one of the most widely used and basic methods for obtaining qualitative data. Interviews are used to gather data from people about opinions, beliefs, and feelings about situations in their own words. Probably the central value of the interview as a research procedure was that it allows both parties to explore meaning of the question and answers involved. Any misunderstanding on the part of the interviewer or the interviewee could be checked immediately. There are 2 kind of interview, namely: structured and unstructured. In this interview process, the researcher used structured interview for interviewing English teacher of tenth grade at MAN Jung Cangcang Pamekasan in using Personal letter media in teaching writing of recount text.

3. Documentation
   Documentation is the last instrument used to explore the data from the English teacher in MAN Jungcangcang Pamekasan. The document of this studies was photo when teaching learning process have done, lesson plan of the teacher, paper assignment from the students.

In this research, the data of this study is collect and get in field. After collecting the data, then analyze the data, as follow : (John W. Creswell, 2012 : 506)

1. Collecting the data
   The researcher get the data from observing the teacher and students to know their responses about the implementation of personal letter in teaching writing in recount text.

2. Verifying the data
   To check the data whether it is complete or not, the researcher verifies the data which are got when there is interview with the English teacher of the eight grade at MAN Jung Cangcang Pamekasan.

3. Classifying the data
   In this step, the researcher classifies the data based on the result of observation, interview, documentation and the implementation of personal letter in teaching writing of recount text in the tenth grade at MAN Jung Cangcang Pamekasan.

4. Analyzing the data
   After classifying the data the researcher tries to analyzing the data systematically. The researcher determines the problems as stated in chapter I, arranges theory where the researcher formulates the problems, the researcher analyzes the result of interview and documentation.

5. Making conclusion
The researcher makes conclusion from the result of analysis and researcher finding before the researcher check the validity of data gotten from research finding.
