Keywords: Boosting, Speaking, Online Game Mobile Legends, English program students.

Introduction
In everyday life, people need more time to communicate. The most dominating form of communication in social life is oral communication. People need communication with others in providing information, getting information, or even entertaining. In addition, the ability to communicate is very important for a person to express opinions to others. Therefore, speaking is the second skill and has an important role in communication. Speaking is a part of daily life that everyone should develop in subtle and detailed language cause speaking is a complex skill at least it is concerned with components of grammar, vocabulary, pronunciation, fluency and comprehension. Furthermore, The main purpose of talking is to communicate. In order to be able to information effectively, it is best to speak properly tounderstand the content of the conversation properly and can also the effect of communication on the listener. So speaking is not just what he talked about, but how to put it forward. All the students want to speak English fluently, therefore students must learn to boosting their speaking skills. Talking about Speaking boosting, the boosting is divided into several aspects ranging from boosting pronunciation, comprehension, grammar, and vocabulary. It can be used as a measurement ourspeaking is good or not. Almost all students have method to boosting English speaking skill namely Online game. The students was familiar with gadgets rarely have online games, not only one but more online games on one gadget. In this era almost all generation Z children familiar with gadgets rarely have online games not only one but more online games on their gadget. Online games are more called a technology than a genre of game type or can be called a mechanism whose function is to connect players together compared to a certain pattern in games. Along with the times and technology using English as the language of instruction, online games are starting to appear with many variations that are increasingly smart and fun on Android for gamers to play as what is
currently booming are Mobile Legends, Free Fire, Player unknown Battle ground (PUBG), Arena Of Valor (AOV). Playing this game all the time has become addictive for millenial generation children. Currently, the use of English is not only used as a connecting for communication between countries, but has also begun to spread to various other fields, for example the mass media. In this modern era, there have been many mass media that use English in publishing news and other unique things. For this reason, as a nation that wants to advance, we must also be able to speak English so that if one day is needed, we will easily understand what the world wants to say.

Playing this game all the time has become addictive for millennial generation student such as student Madura University.

Discussion

Researchers have conducted research among English student program at Madura University students chose nine informants who are expected to be able to information expected in this study.

The results of the interview on the number of informants who have been interviewed, in the interview, researchers get information how mobile legends online games improve their English speaking skills, as well as how the effectiveness of Mobile Legends online games boosting speaking skill themselves. By interviews that researchers have conducted with all nine informants in research "BOOSTING SPEAKING SKILL THROUGH GAME ONLINE INSTUDENTS’ MADURA UNIVERSITY", then it can be discussed as follows:

Boosting speaking skill through game online mobile legends In speaking, there are some aspects that must be fulfilled by the learners. It can be used as a measurement whether our speech is good or not. Fluency There one informant said that his fluency boosted after using mobile legends game. The reason because his turn on voice as communication within the team because not only from within the country that facilitates this Mobile legends online game but around the world that imposes the use of international languages namely English and there are eight informant not boosted their fluency cause just repeated sentence and just focus on game. So for boosting fluency in game online Mobile legends we can activated fiture comunication in game.

Comprehension In game online Mobile legends informants agree to boosting their comprehension cause by playing the game Mobile legends users will unconsciously learn the English used in the game, thus affecting their language comprehension skill. By understanding the meaning of existing words, their English comprehension will boost and in game many familiar keyword in first wall Mobile legends such as shop.preparation ,etc.

Grammar, Grammar is the way to organize the words into the correct sentence. This is important that if the speaker can master grammar to organize the word so the speaker also easily to speak English well. Five informants said that boosted grammar in English after using mobile legends game cause there are many sentences used grammar like presents,past and future.

Vocabulary, Vocabulary is important thing or basic of language. It appears in every language skill. It is very important because we can say nothing without vocabulary in our mind. and also say that their English speaking skills boosted after using mobile legends game. More informants agree if their vocabulary boosted because they have obtained approximately 50 English vocabulary as well as use English for communication within the team because not only from within the country that facilitates this Mobile legends online game but around the world that imposes the use of international languages namely English, thus forcing them to understand what they are going to use and how to strategy as well as use tools to achieve victory in a fight in the game.

Pronunciation if they have a good pronunciation so their speaking will be understandable. Some informants said can not boosted their pronunciation in English after using mobile legends game cause just focus on game and repeated sentence but my assumption we can boosting our pronunciation by game online Mobile legends with listening voice hero in game Mobile legends that pronounces by foreign and practice it.

The effectiveness game online Mobile legend in speaking skill to student’s Madura University legends Factors supporting the effectiveness of speaking there are 2 supporting:

Language factors Accuracy of speech, informants agree accuracy in their speaking when used online game online Mobile legends boost when speaking by activated fiture conversation in game.

Placement pressure, tone, joints, and corresponding duration, The informant that have interviewed not focus about this factor only focus in game so to effective this game the user have to playing together and activated the fiture in game. Word selection, In this Factor informant only focus on game not used word selection when use English so not effective to be media learning, in word selection we can use similar word that have obtained in game. Fixedness the target of the conversation, There are three informants use conversation when their play
game online Mobile legends so that can be effectiveness to be media learning. Eyes in this game online informants just focus in game online Mobile legends. Openness, There is openness in this game factors such as inform the enemy if missing, noob and good game. Gestures and nosebleeds appropriate, the informants gesture just focus on game online Mobile Legends and use emoticon in game fitur. Loudness of voice lethargic and without passion In online game just loudness of voice hero its so clear. Smoothness There is nothing smoothness factor online game Mobile legends that have interviewed cause just play the game. Mastery of the topic a speaker is required to show good reasoning in organizing his ideas so that the listener will easily understand and conclude what he said. The informants mastery the topic game online Mobile legends and comprehension in game.

Conclusion

As for the conclusions obtained by researchers are as follows:

The players of this online game Mobile Legend focused only on playing Mobile Legends games and making the game as a means to fulfill their entertainment when you don’t have activities to do. Game Mobile Legends can also boosting speaking English skill Students at Madura University namely get new vocabulary, familiar keyword in game, implementation grammar in sentences and. There are three informants that game online Mobile legends their English speaking skills boosted after using mobile legends game, can be effective media learning he reason is because they have obtained approximately 50 English vocabulary, grammar in sentence game online Mobile legends and five informants game Mobile legends did not effective to be media learning their reason online game Mobile legends a vocabularies too minimal just game.

Suggestion

This research is expected to be one of the sources of information bring new thinking, broaden insights and science specially for researchers and English students of Madura University and for the general public. It is also expected that further research using different aspects, resulting in the creation of diversity in research. In addition, another hope is to improve the ability of students in boosting English language skills.
