Abstract:
Semantics is a sub discipline of linguistics which focuses on the study of meaning. The present study analyzes about semantics analysis especially on the lexical meaning and contextual meaning. The lexical meaning is to be interpreted as the meaning of lexemes depending on the meaning of sentences which they occur. Lexical meaning is the meaning of the word when the word is seen separately, either in form or form a lexeme affix whose meaning is more or less fixed, as can be read in a certain passage dictionary. Contextual meaning could be regarded as a situational meaning. It arised as a result of the relationship between speech and context. It took the form of a lot of things. This study aim to describe lexical and contextual meaning. This study uses descriptive qualitative method. The informants used data source, data collection, and data analysis. get a short story about this song and they are known about the theme of this song.

Keywords: Emotional intelligence, positive emotions, negative emotions

Introduction
Semantics is a sub discipline of linguistics which focuses on the study of meaning. The present study analyzes about semantics analysis especially on the lexical meaning and contextual meaning. The lexical meaning is to be interpreted as the meaning of lexemes depending on the meaning of sentences which they occur. Lexical meaning concerned with the relationship between words and meanings. Related to lexical meaning, involves, denotation, connotation, synonym, antonym, hyponymy, homonymy, homophone, polysemy, and figurative language.

Lexical meaning is the meaning of the word when the word is seen separately, either in form or form a lexeme affix whose meaning is more or less fixed, as can be read in a certain passage dictionary. Contextual meaning could be regarded as a situational meaning. It arised as a result of the relationship between speech and context. It took the form of a lot of things.

Research Method
the researcher used descriptive qualitative approach. The qualitative method was a research procedure which result in descriptive data including written and oral word from the research objectives whether it is from society or books. According to Creswell (2012), qualitative research is a means to explore and understand the meaning an individual or group perceives human social problems. The research process involves questions and procedures that. The researcher studied lexical and contextual meaning.

Result and Discussion

Result
the researcher analyzed in the following steps. First of all, the researcher read the data. Secondly, the researcher find out the meaning with one by one this word. Thirdly, the researcher category the word who has not the real meaning. After this, the researcher explained the word meaning in these lyrics uses lexical meaning using the dictionaries. And then, the researcher explained about a contextual meaning from the word in these lyrics appropriate the context in this song. Finally the researcher drew the conclusion based on the result.

From the discussion of the data above. The researcher discussion that the lyrics of the song “Maher Zain” told about the smallest story. After the researcher find out the lexical and contextual meaning, the researcher gave a short story about this song. Because, not all people only known about the lexical and contextual meaning, but also they are known about the story. Beside that the researcher gave to know about the theme of this song. Theme of courage and perservence, and love. So, in this this research, the researcher choose the theme of courage, perservence and love. Because the researcher felt that the current youth was more interested in this theme. The researcher took the data from internet social media of youtube “Awakening music” and read the data source, find out the meaning one by one, selected the appriate songs, choose seven lyrics of maher zain song.

Conclusion and suggestion

Conclusion

There so many terms that have the different meanings between the lexical and contextual meaning. Having discussion the data, the researcher finds that the lexical and contextual meanings used in the lyrics of Maher Zain song. The researcher conclude that the reader in the reading the terms have to know not only lexical meaning here is the meaning but also contextual meaning.

The lexical meaning here is the meaning of the meaning of the terms used in the lyrics or “Maher Zain” songs describe in the lexicon or dictionary. The researcher explained those as suitable as were wrote in general dictionary. The researcher want to show that the meaning of the term used in the lyrics or “Maher Zain” songs from lexicon or general dictionary is fairly different from the meaning in the context.

It is different from the lexical meaning. The contextual meaning is the terms explained the actual meaning according to the situation in which they were used. In this case, the situation meant above is terms in the lyrics of “Maher Zain”. Thus, in this discussion is interesting event unique to be learned in order to avoid misunderstanding and misinterpreting.

suggestion

The researcher give a way for analyzed lyric of the song, not only “Maher Zain” song but also the other song. First of all, the researcher collected the data following step. Second, reading all the data sources. Third, selected the appropriate songs in the lyrics “Maher Zain” songs. Fourth, chosen one or some lyrics covered in
the song. The last, the data to be arranged systematically in accordance with the research focuses. To arrange the data, firstly, the researcher defines about the lexical meaning, and the second explained about contextual meaning.
